Global
Training Program

We have helped over 150,000 individuals improve their skills so they can aim for better career goals and achieve success. This is made possible by providing training, to individuals and corporations alike, from industry veteran, certified instructors on our cutting-edge learning platform that incorporates learning aids, study plans, proram progress markers and other impactful teaching techniques.

We've trained professionals from

AICE, amazon.com LOGISTICS, C3i SOLUTIONS THE EXPERIENCE MATTERS, CAESARS, Chemring Ordnance, CISCO, DrFirst, Houston Methodist, SPXFLOW, & more

PRINCE2® Foundation
Training Program

GreyCampus provides an effective PRINCE2® Foundation Training that helps professionals gain comprehensive knowledge and understand techniques to not just clear the PRINCE2® Foundation Exam successfully, but translate these learnings into becoming a capable project manager.

The PRINCE2® Foundation Certification Training expands your skill set to manage projects, utilize resources and handle risks successfully and efficiently.

Learning Objectives

On successful completion of this training program, participants will be able to facilitate effective control of projects using 4 integrated elements.
These integrated elements further include 7 best project management principles which in turn, guide 7 management processes, 7 management themes and the ability to tailor PRINCE2® to suit different project environments and scenarios. This training program meets the following objectives -

- Learn how to manage projects or to work in a project environment using the most internationally recognized project management method.
- Ensure that team members focus on the viability of the project in relation to its business case objectives - rather than simply seeing the completion of the project as an end in itself.
- Promote consistency of project work and the ability to reuse project assets while facilitating staff mobility and reducing the impact of personnel changes/handovers.
- Design plans and reports to meet the needs of each level in the project team and Project Board, improving communication and control.
- Mitigate perceived problems and issues and focus on the viability of the project throughout.
- Evaluate the project portfolio to bring clarity and allow improvements in reviewing projects.

Who Should Attend

Project Managers, General Managers, Programme Managers, Team Managers, Project Management Consultants & support staff wanting to learn how to adapt PRINCE2® for more complex project scenarios and enhance their PRINCE2® application skills by gaining a better understanding of the application of PRINCE2®. However there is no restriction as to the sector in which the individual is working or has worked in.

Program Inclusion

- Bootcamp Training
- 1 Year Access to Audio - Video lectures
- PEOPLECERT PRINCE2® Foundation Exam Included
- 35 PMI PDUs Certificate for PMI Credential Holders
- 2 Simulated Exams

Why Implement PRINCE2®
In Your Organization?

PRINCE2® is the International Standard Method for Project Management. It is recognized as a world-class international product, and is the standard method for project management, not least because it embodies many years of best practice in project management and provides a flexible and adaptable approach to suit all projects. It is a project management method designed to provide a framework covering the wide variety of disciplines and activities required within a project. PRINCE2®'s formal recognition of responsibilities within a project, together with its focus on what a project is to deliver (the why, when and for whom) provides your organization's projects with:

- A common, consistent approach.
- A controlled and organized start, middle and end.
- Regular reviews of progress against the plan and the business case.
- Assurance that the project continues to have a business justification.
- Flexible decision points.
- Management control of any deviations from the plan.
- The involvement of management and stakeholders at the right time and place during the project.
- Good communication channels between the project management and rest of the organization.
- A means of capturing and sharing the lessons learned.
- A route to increase the project management skills and competences of the organization's staff at all levels.

Program Agenda

INTRODUCTION

PROJECTS, PROJECT MANAGER AND PROJECT MANAGEMENT

What is a Project, Project Manager and project Management
